#### Winemaker Notes

Of ruby-red colour, the present version of this wine is elegant and expressive. With a great fruit intensity, its aromas of blackberries, currants and cassis show up swiftly on the nose, giving way to spicy notes of cinnamon, black pepper and tobacco leaves. Slight hints of mocha, complemented by sour cherries emerge little by little as the wine opens up in the glass. It feels well balanced and with great volume. Its soft tannins and crisp acidity give shape to an impressive structure on the palate and allows predicting a long ageing potential.
